SubARRAY™ Enclosures with EZAL™ Complement AL10

A-Line Acoustics introduces high powered arrayable subwoofers to complement the **AL10A** and **AL10X** line array system. Designed and built to be flown with the AL series, the **AS115A** (1 x 15"), **AS215A** (2 x 15") and **AS118A** (1 x 18") **SubARRAY™** systems feature A-Line's exclusive integrated patented **EZAL™** rigging for faster, safer and easier set up. Each cabinet is the height of two AL10 enclosures. **SubARRAY™** cabinets are powered with proven **Bang & Olufsen ICEpower™** technology with onboard DSP for superior performance and reliability.

Made in the USA with the highest grade components, **A-Line Acoustics SubARRAY™** enclosures are constructed in DuraTex coated birch plywood with routed handles. Optional wheelboard available for easy transport and load-in.

SPECIFICATIONS	AS115A	AS215A	AS118A
Configuration	Sub Woofer 1 X 15	Sub Woofer 2 X 15	Sub Woofer 1 X 18
