Elijah™

2003/115SA SMALL VENUE PORTABLE LINE ARRAY SYSTEM

*PRELIMINARY SPECIFICATION PHOTOS DISPLAY Eli II

Pushing the limits of new proprietary driver technology and advanced computer engineering, A-Line Acoustics introduces the 2003/115WA Small Venue Portable Line Array System. 20 proprietary 3" neodymium full range speakers are loaded into a sealed cabinet for fast midrange transient and maximum power handling. The newly designed 3" speakers get the mid-band right for clear light music and speech programs. Using Bang & Olufsen ICEpower™ technology with onboard DSP, the two 2003s delivers pristine midrange and highs with optimum efficiency, while the powered 115WA and unpowered 115X provide low frequency augmentation and amplification for the 2003s. The trim line and two cabinet design allow for sleek, clean looking set ups.

Up to two 2003s can be used in reverberant environments for excellent pattern control down to 115Hz. vertically. Longer, custom designed arrays can be built with larger amplifiers. Please contact us with your requirements.

Made in the USA with the highest-grade components, A-Line enclosures are constructed in Baltic birch plywood. Mounting brackets are available.

Lower Right photo shows the wiring for the two woofers and wiring up to the two 2003s. Signal input and AC connection to the left.

SPECIFICATIONS	2003/115W SYSTEM
Power (Watts RMS)	1000/500 @ 4 Ohms
Amplifier w/ DSP	B&O ICEpower
Impedance	4 Ohms High / 4 Ohms Low
Max SPL *	3' 112dB / 6' 109dB / 12' 107dB
Freq. Resp.	40-16kHz+6 300Hz-4K -1+2
Drivers	20x 3" Highs / 2 x 15" Lows
Connectors	M&F XLR, I/O Powercon
HxWxD (in.)	2003 65 "x 4 "x 6" / 115SA 22" x 18 1/4" x 19 1/2"
Wt (lbs.)	2003 30 Lbs / 115SA 65 Lbs /115SX 55 Lbs
