EMMA™

Affordable, Modular Powered Linear Arrays
 Three models to mix and match for any application. Ideal for *Houses of Worship, Theatres, Ballrooms, Social Halls and Clubs*, easily portable EMMA™ (**Every Man's Modular Array**) speaker modules can be combined for powerful line array coverage over 250 feet with pattern control down to 90Hz (6 806 enclosures 3 coupled per side). Modules may be stacked or flown. Each 2-way enclosure is loaded with specially matched 6.5" LF drivers and 6.5" HF ribbon drivers for smooth, accurate frequency response and remarkable fidelity with 140 degree wide dispersion. Whether for voice, live or recorded music, EMMA systems bring out your best sound with the clear, even coverage as you would expect from expensive quality line source speakers BUT much more affordable. Constructed in birch plywood with integrated handles, EMMA is powered with **Bang & Olufsen ICEpower™** technology. **Made in the USA** with the highest quality components, EMMA speakers are also available with custom finishes (oak/white, etc.), grilles and *Custom-Curve* arrays for specified installations
 Mounting Brackets Available

SPECIFICATIONS	EMMA 406A	EMMA 606A	EMMA 806A
Configuration	2-way Line Source	2-way Line Source	2-way Line Source
Power (watts-program) HF/LF	200	300	400
Impedance - HF/LF	8 / 8	5 / 5	4 / 4
Sens. (dB@1W/1m)	97dB	98dB	99dB
Freq. Resp. (Hz) - DSP Selectable	90-19k	90-19k	90-19k
x-over Frequency	2k	2k	2k
HF Type	4x6.5" Ribbon	4x6.5" Ribbon	4x6.5" Ribbon
Horizontal Dispersion	140°	140°	140°
LF Driver (Ferro Fluid-Cooled)	4x6.5" Neodymium	6x6.5" Neodymium	8x6.5" Neodymium
Amp - B&O ICEPower Dual Volt. w/DSP	200x200	500x250	1000x500
Connectors	A*	A*	A*
HxWxD (inches)	26.9x13.1x9.4	40.2x13.1x9.4	54.4x13.1x9.2
Weight (lbs./kg.)	48 / 21.8	63 / 28.6	79 / 35.9
